

Food Grade Grease for Harmonic Drive Gears

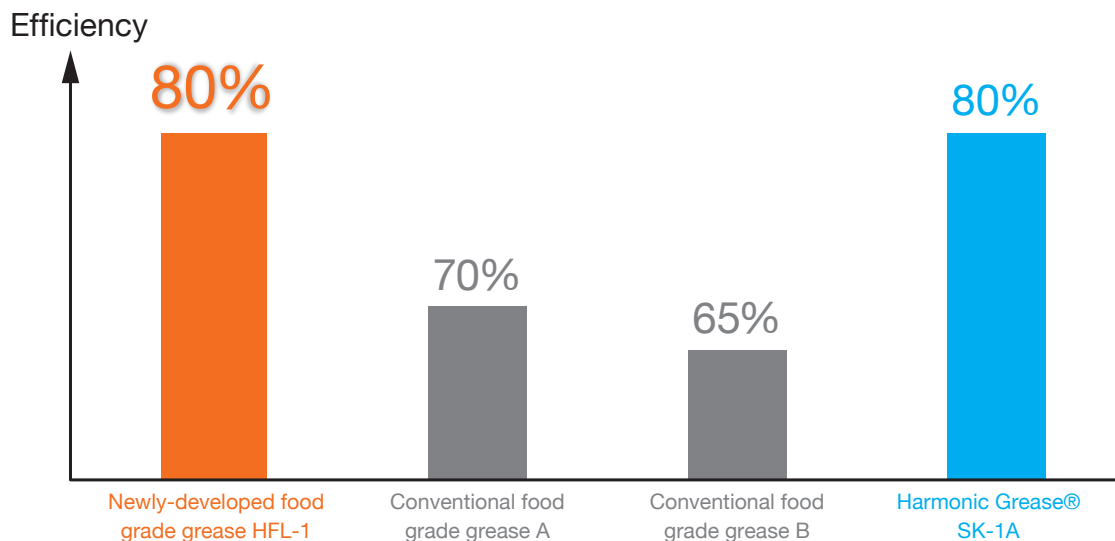

HarmonicGrease® HFL-1

High Efficiency

- Efficiency is equivalent to our standard SK-1A grease.
- 10 to 15% increase in efficiency compared to traditional food grade grease.
- Durability is also equivalent to our standard SK-1A grease.

Efficiency Comparison Chart

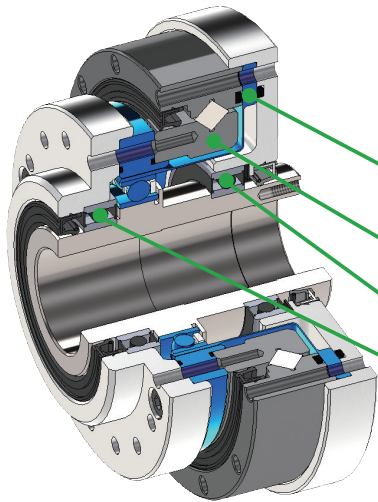

NSF H1 Registered Food Grade Grease

Harmonic Grease® HFL-1 is NSF H1 certified, and approved for use in food processing equipment. H1 class lubricants only contain FDA approved ingredients and can be used in environments where there is the possibility of incidental food contact.

We developed this grease because it was challenging to meet our performance standards for both gear efficiency and durability when conventional food grade greases were used in HarmonicDrive® gears. HarmonicGrease® HFL-1 food grade grease offers the same performance characteristics as our standard grease SK-1A.

HarmonicDrive® Gear Unit - Grease Application Areas

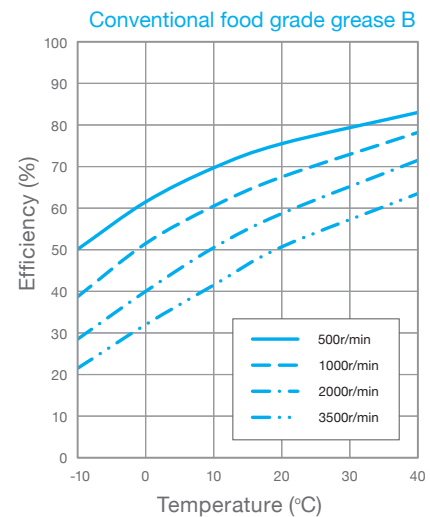

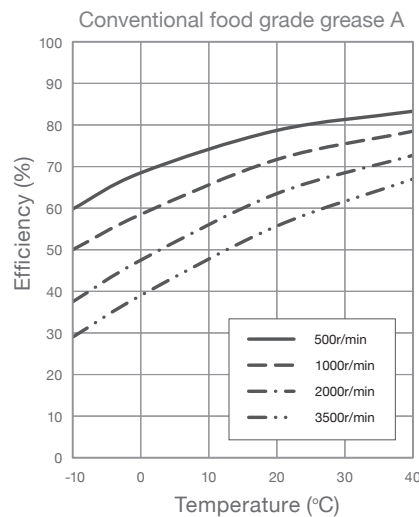

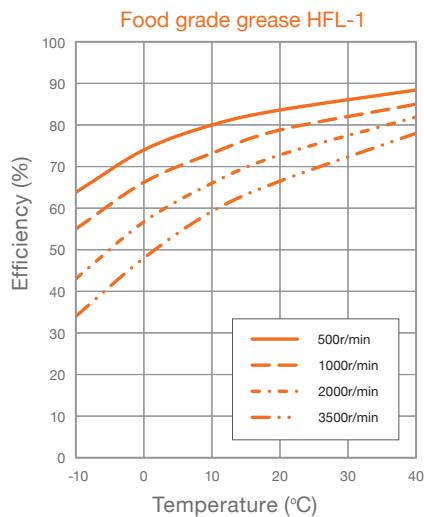

Our food grade grease can be applied to gears and bearings

HarmonicDrive® gear

Cross roller bearing

Support bearing

Efficiency Characteristics*

* CSF-20-100-2A-GR, rated torque
